## FOREWORD

The basic necessity for development and planning of any social system is a reliable data base. This is also true for education, particularly when there is a commitment of the nation for universalization of elementary education in the country. The required data for school education had so far been collected and collated in required reports right from 1958, initially by Government of India and thereafter by collaborative effort of Government of India and NCERT through five All India Educational Surveys. The Sixth All India Educational Survey had been taken up in 1993 with the reference date as September 30, 1993. In the previous five surveys the data collected from Schools & community levels were processed manually. There has been a tangible departure from this procedure in the current Survey where the data collected from grass root levels were computerised by National Informatics Centre. Thus, this survey is a collaborative effort of National Informatics Centre. Thus this survey is a collaborative effort of National Informatics Centre, National Council of Educational Research & Training and the State Government. The Directorate of School Education, Government of West Bengal, was involved in a big way in the collection of these data and their validation. Such a project obviously required a great deal of effort from all the above state collaborators.

I understand that now this data base has been completed and a series of reports are being brought out for the use of the State and Central Governments and other agencies connected with School Education. I am, sure that these

reports and the data base will eventually form a good information system for day to day use of all the stakeholders and the researchers in the field and will also help to introduce many modern technologies into the working of the Department of School Education, Government of West Bengal.

I thank all those who worked tirelessly for production of these reports.

*Manish Chakraborty*  
Secretary  
School Education Department  
Govt. of West Bengal.

It is a matter of great satisfaction that the School Education Directorate of the Government of West Bengal, with all its State, District and Sub-District functionaries did actually rise to the occasion and was extremely co-operative on all occasions when NIC required any assistance. We are also happy to note that the district level officers deputed to NIC from time to time for checking and rectification of input data showed extreme sense of responsibility and patience while doing the job. A team of officers of NIC, West Bengal State Unit has also worked tirelessly for the entire period of execution of the project. It goes without saying that without this level of dedication and sincerity a project of this magnitude and complexities could not have been completed with desired accuracy and within time target.

Having successfully completed the data compilation phase, tabulation of the same is also now completed. A host of reports/tables, based on school Information Form (SIF-I) and College Information Form (CIF), are generated for Block, District, State and National levels covering hundreds of parameters. This booklet is related to only state level reports numbering 217. Keeping in view the magnitude of the information, the total reports have been presented in four volumes. It may be noted that reports of one particular theme / aspect have been considered in a particular volume.

The basic data along with these reports can form a valuable and useful information base across different levels of administration of the Government and the researches in the field. We are hopeful that this information base shall be made use of for planning purposes and for policy decisions.

( State Informatics ~~Officer~~ )  
NIC, West Bengal State Unit

*Govd Xos*  
( State Survey Officer )  
Government Of West Bengal

## P R E F A C E

Level of literacy is one of the most important indicators of development of a nation. Among all the modes of promotion of literacy school education system is considered the most powerful machinery of the Government. In addition, School education system has the unique and onus responsibility of building the future generations and the would be citizens of the country. Development of infrastructure upto the remotest corners of the country is yet another task of this department. Importance of the school education system can therefore by no means be overemphasised.

In a developing country like ours where population is growing at an alarming rate and the percapita income is one of the lowest among the developing nations, state resource is scarce. The available resource is thus required to be judiciously distributed among the vital activities of infrastructure development, employment generation, poverty alleviation, primary and secondary education and the like to obtain maximum benefits for the people.

Periodical assessment of performance in this sector in respect of status of infrastructure both in rural and urban areas, quality of teachers and their future training requirements, number of successful students both age and genderwise and number of dropout cases is a must. However considering the vastness of the country, this exercise is not only costly but also troublesome. To address all these issues Govt. of India, in the Education Departments, conducted periodical All India Educational Surveys and decided to conduct the "6th All India Educational Survey", with reference date as 30th September, 1993, as a joint venture of National Council of Educational Research and Training (NCERT) and the National Informatics Centre (NIC) and the School Education Department, Government of West Bengal.

Logistic support for this Survey, like the past Surveys, is being provided by NCERT, while the Directorate of School Education, Govt. of West Bengal was in charge of collection and field checking of data. This is for the first time in the history of All India Educational Surveys that the National Informatics Centre (NIC), a premier organisation of Govt. of India, has been associated with this Survey for providing informatics support.

Great deal of effort is necessary for collecting and validating data from all schools and other HS institutions and from all villages and towns of the State. While the Directorate of School Education was in charge of collecting data, NIC State Unit was in charge of computerising and purifying the data. A tremendous amount of co-ordination and co-operation between the Directorate and NIC was, therefore, desirable althrough both to maintain the time schedule and to purify the data to the desired level.

## PROJECT TEAM

### 1. NIC , West Bengal State Unit

- a) Dr. (Mrs) J. Choudhuri, Sr. Technical Director & State Informatics Officer.
- b) Mrs. Santa Biswas, Principal Systems Analyst.
- c) Md. Golam Murtuza, Prog. Asst.
- d) Sri Pratap Kr. Ghosh, Tradesman - E.

### 2. Directorate of School Education

#### 2.1 State Level

- a) Sri Alok Basu, IAS, Dir. Of School Education & Dir. Of Survey
- b) Dr. A.K. Das Addl. Dir. of School Education & State Survey Officer.
- c) Sri J. Dasgupta, Jt. Dir. Of School Education & Asst. State Survey Officer.
- d) Miss J. Dutta, Jt. Dir. of School Education & Asst. State Survey Officer.
- e) Sri C.R. Chakraborty, Asst. inspector of schools & Tech. Asst.
- f) Mrs Bani Ghosh, Sub Inspector Of Schools & Tech. Asst.
- g) Mrs. Tripti Chakraborty, Sub Inspector Of School & Tech. Asst.

#### 2.2 Districts Levels

All District Inspectors, Asst. Inspectors and Sub Inspectors of Schools (Primary Education of All Districts of W.B ).
